Learner Gains...

We customize the course according to the requirements of an individual researcher and also provide personalized mentoring services on demand. The comprehensive series of modules in every course provides a deep dive into the topics which are not discussed anywhere and that too in a fun way which the learner will never forget! In addition, the researcher will get some study material and notes appropriate for the course. At the end of the course, certificate of completion would be provided to every learner based on the results of his/her assignments.

Course Agenda

Learner will have to complete 1 module/week; with video sessions of lecture along with assignment to perform. Completion of the module will be considered only after submission of the assignment. The assignment would be assessed by the experts in the fields and results along with brief comments would be mailed to the researcher. In case of doubts the person can leave a query message which would be answered soon on the day itself or in certain circumstances another day. It would be mandatory for the researcher to complete the course modules in the time period of max. 6 months to remain eligible for certification by Khyati Education and Research Foundation.

Study Material

Digital study material will be provided to the students by the teaching faculty for their reference and preparation purpose according to the requirement of the course.
